Dear Harold,

Gratified to hear that your trip was productive.

The Navasky book received of the Newspaper Marque adds this increment does clarify the F.B.I./R.F.K. relationship in regard to The Warren Commission.

Sadly, at the commercial level, I can see no publisher interest in an assassination book, per se, and Howard's only chance would be his age! Such is the market for truth.

Tiger does have market potential but it's a matter of your priorities.

Salandria's review of The Pentagon Papers is one I share. I respect his honesty and determination. Perhaps,

you two could walk together.

I hope that Justice in whose cause you're long-served smiles on you in the coming year.

Best Wishes,
Ed

P.S.

What do your "younger critics" know of <u>reality</u> as divorced from abstract mouthings!
